

Tabla VI Distribución *t*

$$F(t) = \int_{-\infty}^t \frac{\left(\frac{v-1}{2}\right)!}{\left(\frac{v-2}{2}\right)! \sqrt{\pi n} \left(1 + \frac{t^2}{v}\right)^{(v+1)/2}} dt$$

Ejemplo: *n* = 20, *v* = 19

<i>F</i> <i>ν</i>	,75	,90	,95	,975	,99	,995	,9995
